D Grade							
50m	1st: B. Joyce; 538	2nd: P. Lee; 495					
20m							
Teams:	Legion- I. Kelly, P. Milan, M. Xiang						

Thank you to all the Nth Rocks Club members that contributed to making the shoot the success it was, particularly as many of the entries were early and keen to be on the 1st squad.

Thank you to everyone that participated in the 2018 Nth Rocks Prize Shoot and thank you all for making the day's events a success. I hope that you all had an enjoyable day; it may have been overcast (but it didn't rain) but it wasn't too windy which can be (very) challenging on our range.

We also give the option of trying 20m shooting. Perhaps a few more bench people will have ago at this, it's a lot more challenging particularly using the Victorian targets; much, much harder to shoot a 200, but Carmen managed one so it's not impossible.

This is the second year that we've had both bench and prone on the same day. I think that this makes for a full days shooting and, for some, they can do both bench and prone without needing to return on a second day and tie up the whole weekend. It also makes it easier for our members to commit to.

We had a total of 39 entries, with one entrant participating in all four events and having success in each event.

We did make one error with respect to the placings for the 'C' Grade 20m, A. Iggo won 2nd place which places W. Kelly in 3rd. We will rectify this as soon as practicable.

Hopefully we'll see you all again next year.

Best Regards,

Trevor Johnson
President
Nth Rocks Small-Bore Rifle Club Inc.
