

NSWSARAI - Rimfire Benchrest Australia

1/1/2011

I am happy to advise members that the NSWSARAI Council has decided to take over & run Rimfire Benchrest Australia from January 1, 2011. This gives members & clubs another choice in rimfire benchrest shooting disciplines & targets. It will also give our members a chance to represent Australia @ World Championships held every 4 years & also World Postal events that are held every year. We will be the ONLY member body aligned to the World body, more information can be found on www.wrabf.com. I have also attached a page of local Australian Rules we will shoot under but for World Championships we would go under the WRABF world rules. We look forward to growing this not only in NSW but also nationally with the view that TRA might see fit to take it over in the future. We plan to have a demonstration event as part of the benchrest at this years 2010 NSW Championships so people will be able to try the event & the target.
